## **REACH Compliance Statement**

In reference to European Regulation EC No. 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) and the potential presence of Substances of Very High Concern (SVCH), we are providing the following information to our customers.

First Choice Assembly Ltd is fully aware of the REACH regulation and the SVCH list and updates that have been published by the EU. First Choice Assembly Ltd is a supplier of “articles” and does not produce or sell any of the listed substances in their homogeneous form.

We have evaluated our inventory and to the best of our knowledge, they do not contain any substances included on the SVCH list in a concentration above the threshold of 0.1% by weight. Our suppliers of materials have also been contacted and are communicating information regarding the presence of SVCH in their products.

First Choice Assembly Ltd assures its customers that our processes are in full compliance with the EU REACH requirements.

We will take the necessary action to provide notification to our customers if any relevant changes are made to the regulations that require further action.

We will immediately inform our customers in correspondence to REACH Article 33 if any substance of content (as from a content of >0.1%) in our goods will be classified alarming by the European Agency for Chemicals.

If you have any questions regarding this information, please do not hesitate to contact us.
